

Module 2 - Client/Server

Terminology is fuzzy.

Intro to Databases

PostgreSQL or Postgres
password: postgres1

SQL - Structured Query Language

SELECT - What columns I want

FROM - The table that has them

WHERE - But only these rows

IN (values) - comma delimited list

Scheduling Code review

Agree with your group on a half hour meeting time sometime from 1pm-5pm Wednesday or 2pm-5pm Thursday. If possible, pick a couple of choices, then send me a Slack message asking for a time slot. Be prepared for each one of you to talk about some part of the code. Remember Pathway

Giving feedback on your group partners (TPS report)
